

Blue Tongue Campers XH13L Hybrid

Where Off-Road Adventure Meets Modern Comfort

Whether you're heading off-grid or just off the beaten path, the XH13L Hybrid Caravan is your ultimate companion for rugged exploration and comfortable living. Designed and built right here in Australia, the XH13L is engineered to thrive in our harshest conditions — and keep you relaxed while doing it.

Built Tough for Real Off-Roading

At the core of the XH13L is a hot-dipped galvanised chassis, paired with independent suspension, dual shock absorbers, and 12" electric brakes. With mud-terrain tyres wrapped around durable alloy wheels, this hybrid is ready to take on Australia's most demanding tracks. The AL-KO off-road ball coupling and ARK 750 XO jockey wheel ensure solid, stable towing on any terrain.

The caravan's walls are built with advanced composite technology, using high-density XPS foam core bonded between tough fibreglass interior and rugged aluminium exterior layers.

This combination provides superior strength, insulation, and resistance to mould and moisture, making it ideal for both the tropics and the outback.

Clever Comforts Inside and Out

Step inside and discover a thoughtfully designed interior that combines space, comfort, and smart functionality. The XH13L features a double lounge with a swivel table, perfect for dining or kicking back after a day of adventure. An internal ensuite with a Thetford cassette toilet, integrated sink, and an outdoor shower tent means you won't have to compromise on hygiene, even far from civilisation.

You'll also enjoy reverse-cycle air conditioning, ambient LED lighting, a Smart TV, and a premium stereo system — everything you need to make your hybrid caravan feel like home.

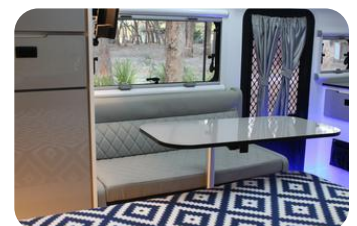

Off-Grid Capability Built In

Freedom comes standard in the XH13L. Stay powered wherever you roam with the Projecta PM200 battery management system, 200Ah lithium batteries, 400W solar panels, and a DC-DC charger. Store and manage your water with 2x 80L freshwater tanks, an 80L grey water tank, and a Truma Ultra Rapid gas/240V hot water system to keep the showers flowing.

Enjoy cooking under the stars with the external galley kitchen featuring a 3-burner gas cooker and sink, and store your essentials in the dedicated fridge compartment (fits up to 69L MyCoolman fridge). There's also front storage for 2x 4kg gas bottles, jerry cans

Smart Design, Practical Inclusions

With an electric pop-top roof and an Awnlux electric awning (3600 x 2500mm) complete with walls, floor, and side skirt, the XH13L expands to suit your campsite in minutes. There are ample internal cupboards, two spare wheels, and a wireless reversing camera to make setup and towing easy and safe.

Get ready to explore the great outdoors with the family in style and comfort with the Blue Tongue XH13L Off Road Hybrid Caravan – your home away from home!
