

Blue Tongue Campers XH16L Hybrid

Introducing the Ultimate Adventure Escape – the XH16L Off-Road Hybrid Caravan by Blue Tongue Campers.

Crafted from the valuable feedback of our customers, the XH16L is the caravan you asked for – tougher, smarter, and packed with the upgrades that matter most. Built for those who always want more, this next-level hybrid delivers true off-road capability without sacrificing comfort or style.

Next-Level Hybrid. Built From Real Feedback.

When you set out on the open road, you're chasing more than a destination. You're chasing freedom – freedom to go further, stay longer, and explore without limits. That's exactly why we created the Blue Tongue Campers XH16L Hybrid Caravan.

Born from the voices of real travellers and tested against Australia's toughest conditions, the XH16L isn't just a caravan – it's a home that moves with you, a fortress against the elements, and a launchpad for adventures you'll never forget.

Built Tough – Because the Outback Doesn't Forgive

Out here, there's no room for compromise. The XH16L has been engineered from the ground up to thrive where bitumen ends. Its hot-dipped galvanized chassis, paired with independent suspension and dual shocks, shrugs off corrugations and rocky tracks. 12" electric brakes and rugged mud terrain tyres give you control on every descent, climb, or creek crossing.

Its composite wall construction is more than tough – it's clever. With a high-density XPS foam core wrapped between fibreglass and aluminium, you'll enjoy superior insulation against the desert sun and winter chill, plus mould resistance for lasting strength. This is a caravan built for decades, not just seasons.

Freedom to Go Off-Grid and Stay Off-Grid

True adventure starts when you leave the caravan parks behind. That's why the XH16L comes with one of the most advanced power systems on the market.

Imagine pulling up by a remote river bend. With 750W of solar panels feeding a bank of 600Ah Renogy lithium batteries (expandable for longer trips), your power is sorted. The 3000W inverter charger with automatic pass-through seamlessly manages off-grid and on-grid supply, so you don't have to think about it. A 7" Renogy smart touchscreen gives you complete oversight of your energy, while USB ports, wireless charging, and entertainment features keep you connected to the modern world – only if you want to be.

Out here, the campfire may still be king, but the XH16L gives you the freedom to choose how long you stay in the wild.

Get ready to explore the great outdoors in style and comfort with the Blue Tongue XH16L Off Road Hybrid Caravan – your home away from home!

A Living Space That Moves With You

Step inside and you'll forget you're off the beaten track. A queen-size innerspring mattress invites you to recharge after a day of adventure, while the convertible club lounge doubles as a second bed for family or guests.

Inside, you'll find a compact yet functional kitchenette with induction cooktop, sink, and microwave – perfect for a quick breakfast before hitting the trails. Step outside, and the heart of the campsite comes alive: the outdoor galley kitchen. A 3-burner gas cooktop, sink, BBQ arm, and quick-connect gas point make cooking under the stars as easy as cooking at home. With a spacious fridge compartment, fresh food is always on hand.

Luxury That Travels With You

Adventure should excite you, not exhaust you. That's why the XH16L is fitted with everything you need to live comfortably, no matter where you stop.

Enjoy the convenience of a full ensuite with Thetford cassette toilet. Refresh with hot water from the Truma gas/electric system, or cool down with the roof-mounted reverse cycle air conditioning. On crisp outback nights, the 2kW diesel heater keeps the interior cosy.

And when the day winds down, setting up camp is effortless: an electric pop-top roof lifts at the touch of a button, while the Awnlux electric awning with annex kit provides instant shelter for family time outdoors.

Prepared for the Long Haul

Every trip is different – but the XH16L is ready for them all. With 200L of fresh water and 120L grey water capacity, you can stay off-grid for days on end. The rugged AL-KO off-road coupling makes towing a breeze, while a front storage box holds dual 9kg gas bottles and jerry cans. Choose between dual spare wheels or a spare plus extra storage to suit your style of travel.

The Evolution of Freedom

The XH16L is more than a caravan. It's a promise: that you can go further, stay longer, and do it all in comfort. It's the result of thousands of kilometres driven, customer feedback applied, and upgrades that truly matter.

This isn't just a machine – it's a partner for your adventures. A hybrid designed not only to conquer the Australian landscape but to make every moment on the road richer, easier, and more rewarding.

Blue Tongue Campers XH16L Hybrid Caravan

Because freedom shouldn't come with compromise.
