

# Blue Tongue Campers XH16i Hybrid

*The Evolution of Freedom*

**Island Bed Luxury | Zero Setup | Off-Grid Power**

**Built from the same rugged foundation as our flagship XH16L, the XH16i introduces a new level of convenience for travelers who value time and comfort. The "i" stands for Island Bed—providing a walk-around sleeping arrangement that requires no fold-outs and zero setup**

## Why the XH16i? Here are the key features

While it shares the legendary electrical and off-road DNA of the XH16L, the "i" model is designed for those who want to "stop and sleep fixed bed layout" without any effort sliding or unfolding to set up the bed.

**Permanent Island Bed:** A queen-size innerspring mattress accessible from the side—no climbing over your partner and no rear extension needed.

**Integrated Washing Machine:** Stay off-grid longer with the convenience of onboard laundry, a standard feature in the XH16i.

**True Split Ensuite:** Features a separate shower and toilet for a more spacious, residential-style bathroom experience

**Robust Roll-Out Awning:** A heavy-duty manual roll-out awning designed for maximum durability in high winds and harsh conditions

**Internal kitchen:** A functional internal kitchen with an induction cooktop (powered through the inverter or grid), sink, plenty of cupboard space, 96L internal upright fridge/freezer

**External kitchen:** Slide out kitchen with a gas cooker, sink and loads of pantry storage, fridge slide with extra storage

## The Smartest Power System in the Bush

Enjoy the same advanced Renogy electrical suite that sets Blue Tongue apart.

True adventure starts when you leave the caravan parks behind. That's why the XH16i comes with one of the most advanced power systems on the market gives you the freedom to Go Off-Grid and Stay Off-Grid

Imagine pulling up by a remote river bend. With 750W of solar panels feeding a bank of 600Ah Renogy lithium batteries (expandable for longer trips), your power is sorted. The 3000W inverter charger with automatic pass-through seamlessly manages off-grid and on-grid supply, so you don't have to think about it. A 7" Renogy smart touchscreen gives you complete oversight of your energy, while USB ports, wireless charging, and entertainment features keep you connected to the modern world – only if you want to be.

Out here, the campfire may still be king, but the XH16i gives you the freedom to choose how long you stay in the bush in comfort

### Luxury That Travels With You

Adventure should excite you, not exhaust you. That's why the XH16i is fitted with everything you need to live comfortably, no matter where you stop.

Enjoy the convenience of a full ensuite with Thetford cassette toilet. Refresh with hot water from the Truma gas/electric system, or cool down with the roof-mounted reverse cycle air conditioning. On crisp outback nights, the 2kW diesel heater keeps the interior cozy.

And when the day winds down, setting up camp is effortless: an electric pop-top roof lifts at the touch of a button, while the Awnlux awning with annex kit provides instant shelter for family time outdoors.

### Prepared for the Long Haul

Every trip is different – but the XH16i is ready for them all. With 200L of fresh water and 120L grey water capacity, you can stay off-grid for days on end. The rugged off road pin coupling or AL-KO off-road coupling makes towing a breeze, while a front storage box holds dual 9kg gas bottles and jerry cans.

Choose between dual spare wheels or a spare plus extra storage to suit your style of travel.

### The Evolution of Freedom

The XH16i is more than a caravan. It's a promise: that you can go further, stay longer, and do it all in comfort. It's the result of thousands of kilometers driven, customer feedback applied, and upgrades that truly matter.

This isn't just a machine – it's a partner for your adventures. A hybrid designed not only to conquer the Australian landscape but to make every moment on the road richer, easier, and more rewarding.
