

The All-New

XH13L Hybrid Caravan

More Adventure. More Flexibility. No Compromise.

The XH13L is built for those who want to explore further without the size and complexity of a full caravan — compact, capable, and ready for real off-road touring. With a smart layout and proven off-road foundation, it delivers the perfect balance of comfort, practicality, and rugged performance.

TOUGH BY DESIGN. *Engineered for Australian Conditions*

Built on a hot-dipped galvanised chassis with independent suspension, dual shock absorbers, and mud-terrain tyres, the XH13L is designed to handle corrugations, remote tracks, and harsh environments.

Advanced composite panel construction with high-density XPS foam core provides strength, insulation, and resistance to moisture and mould.

SETUP / LIVING. *Simple Setup. Smart Space.*

Electric pop-top roof and Awnlux electric awning allow fast, practical setup. The double lounge with swivel table provides a functional space for dining, relaxing, and everyday use.

FEATURES. *Designed for Practical Comfort*

Double Lounge: lounge with swivel table for dining and relaxation

Full Ensuite: Thetford cassette toilet and integrated sink

Internal Storage: ample cupboards throughout

Entertainment: LED lighting, Smart TV and stereo system

Fridge Compartment: suits up to 69L MyCoolman fridge/freezer

OFF-GRID CAPABILITY. *Power, Water & Independence*

600Ah lithium batteries (no upgrade available) Renogy Power Management, 750W solar. 2 x 80L fresh water tanks and 80L grey water storage.

Truma Ultra Rapid gas/240V hot water system for reliable off-grid use.
