CAMPERS

The All-New

XH15 Hybrid Caravan

More Power. More Freedom. No Compromise.

The XH15 has always been a fan favourite for those who want to wander where the Wi-Fi is weak but the views are world-class. With the new model, we've taken everything you loved about the original and supercharged the internals.

We didn't just add features — we re-engineered the way you experience off-road travel. The new XH15 is built for the long haul, the hot nights, and the total independence of true off-grid living.

TOUGH BY DESIGN. *Engineered for Australian Conditions*

At the heart of the XH15 is a reinforced, fully galvanised chassis built to handle corrugations, river crossings, and remote terrain with confidence. Upgraded independent suspension, heavy-duty trailing arms, and twin shock absorbers deliver exceptional stability and control wherever the road — or lack of one — takes you.

High ground clearance and robust off-road components ensure the XH15 isn't limited by conditions, only by your sense of adventure.

SETUP / LIVING *Faster Setup. Smarter Living.*

Arrive late or leave early — either way, the XH15's rapid setup means camp is ready in minutes.

Inside, thoughtful upgrades maximise usable space, ventilation, and storage, giving you a comfortable retreat after a long day on the tracks.

OFF-GRID CAPABILITY *Power, Water & Independence*

Designed for extended off-grid travel, the XH15 delivers serious self-sufficiency with upgraded battery and power management.

With ample solar capacity and 200L water storage, you're equipped for a fully functional shower, toilet, and external wash-down when needed.

A Truma gas/electric hot water system adds everyday comfort — so you can stay out longer, travel further, and camp with confidence.

WHAT'S NEW. *The Power Evolution*

We heard you — you want to stay out longer and stay comfortable. Here's how the new XH15 delivers:

POWER SYSTEM.

750W Rooftop Solar

Boosted solar capacity delivers faster recharge times, whether you're chasing the sun or parked in partial shade. Quiet, reliable power without the need for a generator.

300Ah Lithium Battery System

Standard 300Ah lithium setup, with upgrade options to 600Ah or 900Ah for extended off-grid stays. Plenty of power for your essentials — and more.

3000W Inverter / Charger + Off-Grid A/C

A true game-changer. The integrated 3000W inverter charger allows your air conditioner to run directly from your battery system — delivering climate-controlled comfort without external power.

DIMENSIONS.

Closed: 6450L x 2040W x 2365H

Setup (Roof Up + Annex): 6450L x 3270W x 2870H

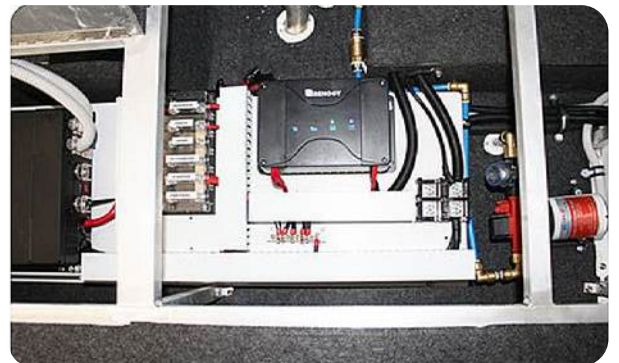

Tare: 2240kg **ATM:** 2900kg

Ball Weight: 200kg

Water: 200L fresh + 125L grey

OPTIONS.

- Add 1 or 2 additional 300Ah lithium batteries
- Diesel heater for cold-weather touring
