

The All-New

**Settle in.
Stay longer.**

XH17.6i Hard Roof Off-Road Caravan

Arrive, and you're already home.

The XH17.6i is a full hard roof off-road caravan built for two. Nothing to wind up, nothing to fold out, nothing to make up again in the morning. Just a solid roof over your head, a queen bed that's always ready, a separate shower and toilet, and enough power on board to stay as long as you like.

The Next Step Up.

There's a point where you stop wanting to set up camp and start wanting to simply be at camp. That's what the XH17.6i is built for.

Built as a genuine off-road caravan on a heavy-duty chassis, the XH17.6i is designed to handle corrugations, dust and changing conditions with confidence. The full hard roof construction means no canvas to raise, zip or maintain — just a solid, secure touring setup wherever the road takes you.

SETUP / LIVING. Arrive, and You're Already Home.

Nothing needs to be raised, unfolded or converted. The island queen bed stays made, the club lounge and dining table stay ready, and the separate shower and toilet are always available. It's a layout designed around two people and extended stays, with space to settle in rather than constantly set up.

FEATURES. Designed for Comfort & Convenience

Island Bed (Walk-Around): queen-size inner-spring with easy side access.

Integrated Washing Machine: onboard laundry for extended off-grid stays.

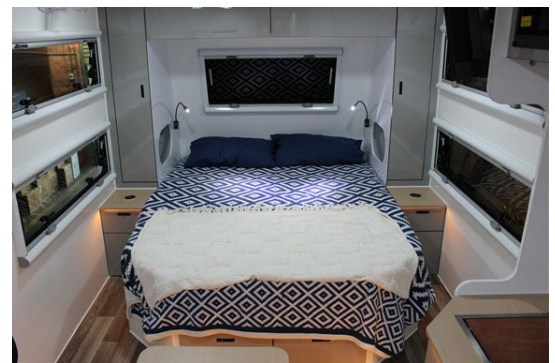

True Split Ensuite: separate shower and toilet for a spacious, home feel.

Internal Kitchen: induction cooktop, sink, cupboard space and fridge/freezer.

External Kitchen: 90° pivot kitchen with 4-burner cooker, sink and BBQ.

OFF-GRID CAPABILITY. Power, Water & Independence

Built to stay away longer, the XH17.6i combines 600Ah Renogy lithium, 1000W roof-mounted solar and a 3000W inverter charger to run essential systems without relying on external power. Two 120L fresh water tanks, a 120L grey water tank and instantaneous gas hot water complete a touring package designed for genuine self-sufficiency.
